

Aarav Mehta

Frontend-focused software developer | React, JavaScript, REST APIs, responsive web apps

Bengaluru, India | developer@example.com | github.com/your-username | linkedin.com/in/your-profile

Professional summary

Frontend-focused software developer who enjoys building clean, responsive, and practical web applications. Comfortable working with React, JavaScript, REST APIs, HTML, CSS, Git, GitHub, Postman, and component-driven UI patterns.

Skills

Frontend	React, JavaScript, HTML5, CSS3, responsive design, component systems
Tools	Git, GitHub, Postman, VS Code, browser devtools, deployment basics
Concepts	REST APIs, UI states, routing, forms, dashboard layouts, accessibility basics

Experience

Frontend Developer Intern - Northstar Digital Labs | Jan 2025 - Apr 2025

- Built reusable React components, responsive layouts, and API-connected interface screens for internal dashboards.
- Collaborated with designers and backend developers to translate product requirements into working frontend flows.
- Improved UI consistency by organizing repeated interface patterns into reusable components.

Campus Developer Lead - Developer Student Circle | Aug 2023 - May 2025

- Organized peer learning sessions around frontend fundamentals, debugging, and small project builds.
- Reviewed student portfolios and helped teams improve project presentation, UI polish, and deployment readiness.

Projects

E-commerce storefront

A storefront UI concept with homepage, category cards, search, cart states, and responsive product sections.

AI resume analyzer

A resume-analysis dashboard concept with upload flow, feedback cards, score visualization, job matching, and suggestion states.

Workflow dashboard

A dashboard-style interface for tracking tasks, users, schedules, statuses, and operational workflows.

Component system playground

A set of reusable UI patterns including cards, navigation, forms, filters, badges, and responsive layout experiments.

Education

B.Tech in Computer Science and Engineering - Vidyut Institute of Technology | 2021 - 2025
